## **DETAILED ACTION**

### ***Claim Objections***

Claim 10 is objected to because of the following informalities and appropriate correction is required.

The following phrase(s) lack clear antecedent basis within the claim(s), i.e., either the particularly recited passage fails to be properly introduced prior to its appearance at that point in the claim or the structure recited in the passage is not an inherent part of or component of the previously recited structure. The lack of antecedence as noted *infra*, is merely formal, since the claims can be understood in light of the instant specification and drawings; the antecedence informalities delineated below do not rise to the level of a rejection under 35 USC 112 2<sup>nd</sup> paragraph:

With regard to claim 10, the phrases “the vertical groove,” “the first opening,” and “the sliding piece” all lack antecedent basis. This claim objection would be obviated by amending claim 10 to depend from claim 4, in lieu of claim 1.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2627

With regard to claim 1, as well as dependent claims 2-10, the scope of the claim is indefinite due to inconsistencies between what is respectively recited in the preamble and body of claim 1. More specifically, the preamble indicates that claim 1 is drawn to a "CD-ROM drive" *per se*. In contrast, the body of claim 1 recites at least one element which is extraneous to the CD-ROM drive (i.e., "a frame" having an interior structure, within which to mount the CD-ROM drive) and positive structural relationships between the frame and the CD-ROM drive, thereby indicating that the claims are drawn to the combination of the CD-ROM drive and the frame. Such discrepancies prevent any reasonable determination of the scope of protection to be afforded by these claims.

Claims 2-10 are also rejected under this statute and paragraph.

### ***Conclusion***
